Poooper Monthly

It's a new look!

Hello everyone! Thanks for taking the time to read our newsletter and we hope it provides you with a little entertainment and even some helpful information.

Poooh Busters has been in business for two years now and we thought it was about time for a fresh new look on our website and our monthly newsletter. Please let us know your thoughts, we love the feedback!

Is there anything you would like to see in our newsletters? Make sure to let us know and we'll be sure to re-search your request and write a brief article about any subject you would like to see here.

My name is Buster!
I hope you like our
new website!

Happy Halloween!

Last year in our October 2007 newsletter we talked about the Halloween holiday and how it can affect our dogs. I wanted to touch upon this again. Halloween is a fun time for kids and even adults but it can be a bit of a scary and confusing thing for our pets! With all the strangely dressed people coming to our door and yelling "Trick or Treat!", the lights, the loud music and sounds effects, it can be an overwhelming night.

So here a few tips to help keep our dogs stress free and safe for this one scary night of the year:

- **Don't leave your dog outside** - Pranksters love to tease dogs, so protect your dog by putting him in a safe place.
- **Keep your dog away from the front door** - A very gentle dog can become aggressive when fearful, resulting in possible bites. Also, your dog cannot run out the front door and become lost in the neighbourhood.
- **Keep candy and wrappers away from your dog** - Many candies, especially chocolate, are very toxic to dogs.
- **Keep dogs away from candles and pumpkins** - They can be accidentally knocked over.
- **Have fun, but think of your dog's safety** - Finally, if you want your dog to be involved in Halloween festivities, think about his safety much as you would a small child.

Volume 2, Issue 10
October 2008

Did you know that:

- ☺ There are currently over 90 off-leash dog parks throughout Calgary?
- ☺ Dogs were first domesticated by cavemen in the Palaeolithic age and gradually developed into the breeds we know today?
- ☺ That man has only 5,000,000 sensory "smelling" cells, but a Dachshund has over 125,000,000? Alsatians have 220,000,000!
